Subject: Re: [External] Solar Energy

I appreciate receiving your response regarding my comments about competitive and in particular, solar energy.

I do realize that ex parte communications is strictly prohibited and I understand why; however I also believe that public explanations about the PSC's decisions may eliminate the need or desire to discuss.

Because I am a senior citizen and limit my travels to Columbia, I hope that some of the hearings will be conducted closer to my home in Seabrook SC.

Thank you for your continuing public service on SC's Public Service Commission.

Miriam Mitchell (District 1)

I commend you for speaking out in support of solar, arguing that the South Carolina House and Senate were clear that they wanted more renewables in South Carolina. It was incredibly unfortunate that your colleagues, sided with the utility monopolies.

I'm wondering if this matter has been brought to Governor McMaster's and the Office of Regulatory Controls' attention? Or is there even anything they can do to reverse the PSC commissioner's stand?

I'm from Beaufort County and am extremely disappointed that Beaufort County's PSC member would oppose support of solar companies. It's obvious he does not represent my or my neighbors' best interest!

Thank you for your support.
